INTAKE/WAIVER FORM

Print Name: _____

IMPORTANT: If Any Of The Conditions Below Are Marked, Yoni V-Steam Is NOT A Safe Service For You And You Are Not Eligible For This Service. Please Mark Any Of The Following That Apply. Please Check Any Medical Condition Listed Below That You Apply To You, If The Condition Does Not Apply To You Please Indicate N/A (Not Applicable).

Condition	Yes/NA	Contraindication
Menstruation		While Yoni Steaming Addresses A Myriad Of Concerns Related To Your Cycle, Steaming During Active Menstruation Or Fresh Spotting Is Contraindicated. Steaming Can Cause Heaving Bleeding By Speeding The Up The Flow Of Blood. You Should Schedule Your Steams Before And After Your Period. This Will Help To Aid In The Natural Cleansing Of The Uterus That Occurs During The Period.
Pregnancy & Insemination		While Trying To Conceive: While Yoni Steaming Is Helpful In Aiding Healthy Conception And Is Excellent To Promote Healing After Giving Birth, Steaming While Pregnant Is Contraindicated. It Can Be Dangerous Because Steaming Relaxes And Opens The Cervix Which Could Result In A Miscarriage Or Early Labor. Additionally, Anyone Who Is Trying To Conceive, They Can Steam During The Time From After The Last Period Up Until The Point Of Ovulation. Steaming After Insemination Can Interfere With The Sperm Fertilizing And Implanting.

Miscarriage		Yoni Steaming Is Absolutely Beneficial And Helpful For Recovery After A Miscarriage. However, You Shouldn't Schedule Your Steam Until After The Pregnancy Matter Had Cleared Out. If You Steam Before The Pregnancy Matter Has Cleared Out, And The Bleeding Has Turned To Brown, This Can Result In Heavy Bleeding.
Spontaneous Heavy Bleeding		If You Have Two Periods A Month (Spontaneous Heavy Bleeding), Yoni Steaming Is Contraindicated. As Previously Mentioned, Steaming Speeds Up Circulation And Opens The Cervix. This May Cause Spontaneous Bleeding To Occur, And Can Be Dangerous When It Is Heavy. If You Want To Steam, You Should First Get The Having Bleeding Under Control First. I Suggest Seeking Out A Qualified Acupuncturist First Who Can Help Get This Condition Under Control.
May Cause the Reversal of the following		Endometrial Ablation, Tubal Cauterization, Essure, And The Patch Hormonal Birth Control That Prevents Pregnancy By Thickening The Uterine Lining. If You Are Using Any Of These Methods Of Birth Control, Please Back Them Up Before Vaginal Steaming.
Any Active Internal Abdominal Infections Cervical		Uterine, Ovarian Inflammation, Cancers
Any Open Sores Or Blisters Present		
Any Fever
